

## PACKAGING TAPES - Natural Rubber

I nastri adesivi da imballaggio a base di gomma naturale possono essere realizzati con supporto in PVC, BOPP o con supporto in CARTA liscia. La gamma comprende una vasta serie di referenze, sia nella versione standard sia in quella colorata, atte a soddisfare le varie esigenze nel campo dell'imballaggio industriale. Consigliati per la chiusura di imballi medio-pesanti, i nastri con adesivo a base di gomma naturale possono essere utilizzati manualmente o con nastratrice automatica. Hanno ottime prestazioni sulle più varie superfici di applicazione e non soffrono gli sbalzi di temperatura.

*Adhesive tapes for packaging can be made of PVC, BOPP or flatback paper.*

*Our range includes a wide series of references, both in standard and coloured version, designed to meet the most sophisticated industrial packaging requirements.*

*Packaging tapes in natural rubber are available both in hand-rolls and machine-rolls for medium-heavy weight box sealing.*

*They have excellent performance on different surfaces and do not suffer any sudden change in temperature.*

Evotape Packaging s.r.l.
